Thank you for your interest in Atlantic.Net Hosting Solutions! We look forward to providing you with powerful, robust, scalable hosting solutions that will save you money and help you run your business without any of the usual computing hassles.

Our 100% uptime guarantee and turnkey solutions mean our clients can spend more time focusing on their core competencies while eliminating the cost and complexity of equipment purchases and ongoing IT management.

We leverage our years of experience, engineering expertise and world-class data center infrastructure to give you this vital competitive advantage, and back it up with unmatched service and support. This has been the key to our continued growth and success since 1994.

I hope that you find value in our solution and in working with a company that has been around for almost two decades!

I am eager to move forward with this implementation and look forward to working with you. If you have any questions, please contact me at my direct line.

### **About Atlantic.Net**

Since 1994, Atlantic.Net has built a reputation as a market-leading Hosting Solutions Provider renowned for simplifying complex technologies and providing exceptional Infrastructure as a Service (IAAS). Atlantic.Net operates SSAE 16 (SOC 1) TYPE II (Formerly SAS 70) audited and certified hosting solutions to meet the advanced IT needs of businesses around the globe.

The Atlantic.Net portfolio covers an array of hosting solutions including: Virtualization, Colocation, Cloud Server Hosting, Shared Web Hosting, Managed Server Hosting, and Dedicated Server Hosting. In addition, Atlantic.Net is dedicated to developing innovative custom hosting solutions that enable organizations to reduce costs while also implementing tailored infrastructure and services.

## Why Choose Atlantic.Net?

Atlantic.Net has the expertise and experience to advise your management team on an IT resource roadmap, and then work down in the trenches with your technical staff to implement a customized solution.

**Reliability** – Since 1994, we have consistently grown by providing innovative technologies within a stable and reliable business model. Atlantic.Net has been named to Inc. 500 List for three years in a row, and to the Florida 100 for four years in a row.

**Security** – At Atlantic.Net, physical and data security is implemented with strict guidelines set forth by SSAE 16 (SOC 1) TYPE II compliance. Dedicated, audited, secure infrastructure is our core competence, and we take great pride in safeguarding our clients' data.

**Cost** – Atlantic.Net Hosting Solutions provide tremendous up-front savings along with more manageable operating costs. Rather than building your own in-house infrastructure, engage our existing world-class systems to fulfill your computing needs.

**Regulatory Compliance** – Atlantic.Net, as a SSAE 16 (SOC 1) TYPE II audited and certified Hosting Solutions Provider, offers an efficient solution to address compliance requirements. Outsourcing your computing operations to Atlantic.Net reduces costs and ensures compliance while simultaneously making your organization more efficient.

## World Class Data Center

Whether you want to run a virtual server on our hardware, or re-locate legacy systems to a secure and controlled environment, our data center offers peace of mind and unmatched engineering support.

**100% Uptime Network** - Atlantic.Net's Network is designed to provide industry-leading 100% Network and Infrastructure Guarantee.

## Carrier Neutral Data Center - Network Providers

Atlantic.Net works closely with following telecommunications providers to provide you access to world-class networks.

## Experienced Management and Innovative Engineering Team

**Experienced Management** – For over 17 years, Marty Puranik, Founder, President and CEO, of Atlantic.Net has led an accomplished and aggressive management team with a combined total of more than 150 years of technology experience.

**Support Team** – From understanding your company’s goals to developing, planning, administering, troubleshooting, and managing your customized server environment, Atlantic.Net is here to support your team 24 hours a day.
